

100W Dimmable LED Driver

SOLOdrive AC is a constant current LED driver with four LED outputs that are controlled over a single channel. It is targeted at larger networked and smaller standalone installations that require dimmable, high-power, general white LED lighting. SOLOdrive AC is available in a DALI and 0-10V compatible version.

Applications

- Office lighting
- Architectural lighting
- Hospitality lighting
- High and Low Bay lighting
- Signage / advertising lighting
- Retail lighting
- Public area / park / street lighting
- Display lighting
