TOOLbox pro

Introduction

The TOOLbox pro is a powerful configuration device that provides the physical link between your PC and your eldoLED driver. Used in combination with FluxTool or ShowMaster DMX, TOOLbox pro offers the ability to configure drivers via LEDcode and DMX. It may also be used with the TOOLbox adapter to enable configuration without line voltage (see Compatibility overview for eldoLED Tooling for details).

What is included	TOOLbox pro
	One 3ft (1m) USB A to mini USB cable
	One 2ft (0.6m) RJ45 to LEDcode, DALI, DMX cable
