Connecting and installing DALI compatible LINEARdrive 210D/220D

A Removing the cover

B Mounting the LED driver

C Removing the strain reliefs

⚠ CAUTION: The device may only be connected and installed by a qualified electrician. All applicable regulations, legislation and building codes must be observed. Incorrect installation of the device can cause irreparable damage to the device and the connected LEDs.

i Use an identical AWG value for the wires held in place by the same strain relief, so the strain relief is most effective.

D Making the wire connections

E Fastening the strain reliefs

F Replacing the cover
