Connecting and installing DALI compatible LINEARdrive 210D/220D

A Removing the cover

B Mounting the LED driver

C Removing the strain reliefs

CAUTION: The device may only be connected and installed by a qualified electrician. All applicable regulations, legislation and building codes must be observed. Incorrect installation of the device can cause irreparable damage to the device and the connected LEDs.

Use an identical AWG value for the wires held in place by the same strain relief, so the strain relief is most effective.

D Making the wire connections

E Fastening the strain reliefs

F Replacing the cover
