

VIA RACK-MOUNT INSTALLATION ENTERTAINMENT ETHERNET SWITCH

Models shown: PWVIA RM P12 RJ45EC SFPslot POE

WARRANTY

3-year limited warranty. Complete warranty terms located at:
<https://www.acuitybrands.com/support/warranty>

NOTE

Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.

Pathway Pro marked products are geared for advanced entertainment lighting system applications and are available only to authorized buyers.

VIA switches support SixEye cloud-based remote management

OVERVIEW

The VIA™ series of Ethernet Switches are designed specifically for lighting, sound and video signal distribution in all entertainment production systems, including live shows.

Unlike switches designed and marketed for office and communication applications, VIA switches ship unmanaged, pre-configured and optimized for entertainment network use.

Advanced management features, including VLAN Support, EAPS Ring Protection, IGMP, and more are enabled and configured through the free configuration tool, Pathscape. Port LEDs provide instant confirmation of port PoE and Link activity.

The VIA Rack-mount Ethernet switches feature robust housings that will stand up to the abuse of touring shows and theatre backstages.

FEATURES

- 12 locking RJ45 etherCON ports (10 on front panel, 2 on rear)
- Ports support 10/100/1000Base-T speeds
- Two mini-GBIC ports for SFP/SFP+ fiber modules; models pre-populated with 1GB or 10GB SFP transceivers available
- Supports SFP/SFP+ Direct-Attach cables, both active and passive
- Integrated 100W Power-over-Ethernet (PoE) supply for powering compatible external devices, up to 15W per port [POE model]
- Illuminated LCD and rotary encoder for displaying and setting switch and port properties
- Advanced features include IGMP Querier and Snooping, DHCP server per VLAN, Dante-compliant QoS options, EAPS Ring Protection, RSTP
- Art-Net to sACN conversion
- LED Indicators for Device Status/Processor, Global PoE Status, Port PoE and connected device Link Status
- Global properties editable from front panel interface: IP Address, Subnet Mask, Default Gateway, VLAN Configuration, Link Speed, PoE Allocation, DHCP Pool, Ring Protection, IGMP Filtering, QoS Options
- Properties displayed by front panel interface: Switch Name, Port Name, PoE Usage, Serial Number, MAC Address, Firmware Version, Connected Devices (LLDP), Ring Status, Link Status, Port Status, Ring Status, Bandwidth Usage, Switch Chip Temperature
- Silent operation: fanless, convection-cooled design
- 1 RU (Rack Unit) high housing fits standard 19" equipment racks
- Operates on 100-240VAC 50/60Hz wide-ranging power input
- Standard IEC Power input
- Reversible Rack ears included
- Wall-mount (PWACC WMLG) and Truss-mount (PWACC TMLG) accessories available
- Also available in DIN-mount (PWVIA DIN) form factor, and Touring Edition with opticalCON Connectors (PWVIA RM P12 RJ45EC [DUO/QUAD])

ORDERING INFORMATION

PWVIA				EXAMPLE: PWVIA RM P12 RJ45EC 10GSFPP POE			
Series	Form Factor	Port Quantity	Port Type	Additional Ports	PoE Enabled		
PWVIA Pathway VIA Ethernet Switch	RM Rack-mount	P12 12 Ethernet Ports	RJ45EC RJ45 etherCON Connector	SFPslot 2 SFP/SFP+ Slots, Empty 1GSFP1 SFP 850nm 1GB Ethernet Optical Transceiver 10GSFPP1 SFP+ 850nm 10GB Ethernet Optical Transceiver	NONPOE Without PoE POE PoE Enabled		

Notes

1. If selecting either 1GSFP or 10GSFPP, note this option will ship with 2x SFP/SFP+ transceivers, one per port.

SPECIFICATIONS

Electrical

Input Ratings PWVIA RM P12 RJ45EC [xxxx] NONPOE

100-240VAC 50/60Hz power input
25W maximum power consumption

PWVIA RM P12 RJ45EC [xxxx] POE

100-240VAC 50/60Hz power input
125W maximum power consumption (25W for switch, 100W distributed to connected PoE devices)

Output Ratings PWVIA RM [xxxx] POE

Class 3 PoE available on Ports 1-12 (maximum 15.4W per port)
